Viñedos San Lucas

MAIN FEATURES

- Ref: 4764
- Size Land: 1,200 acres

Following the same Tuscany theme as their previous project—but expanded in size and scope—residents arriving at the gated community of San Lucas pass through triple security-gate entrances before arriving in an oasis of vineyards, olive trees and lavender fields, all surrounding a boutique hotel, two restaurants, on-site winery and cava, olive-oil and lavender production facilities, an on-site chapel for weddings, and a polo field replete with stables. Residential lots allow limited building footprints, with the balance of the land planted in the above-mentioned vines and trees, all harvested annually by the Home Owners Association, allowing you to enjoy your own wine
