MAIN FEATURES

- Ref: 7120
- Size Land: 12,880 ft²

Beautiful lot located at only 15 minutes driving to the entrance to San Miguel and only 5 minutes away from the road to Guanajuato. It sits inside a gated community called "La Presa", with security, and there are already some large Mexican contemporary homes built. This lot has an advantageous location as it is close to the city, yet it has a country like setting with great views to the Allende water dam. The lot is pretty flat and there is water and electricity.
