contiguous lots in El Saltito, the private development in El Saltito de Guadalupe, offered together or separately. Both lots are flat, and ideal for building a large house or two excellent-sized houses. Saltito de Guadalupe has become a very desirable area due to its proximity to the urban area but also because there you can breathe fresh mountain air due to being close to Los Picachos mountains. The houses that have been built in the surroundings are owned by both Mexicans and foreigners, which makes the area a multicultural place where you can enjoy walks in the countryside, but with the advantage of having schools, hospitals, a shopping center, hotels, banks, etc. at just 5 minutes.
