Living in Alcocer means enjoying the peace of the community without giving up modern necessities. The municipality is distinguished by maintaining its operational basic services (medical care, pharmacy) and offering access to good internet connections. Its setting of natural landscapes makes it the perfect retreat for those seeking well-being and an active life. Key Land Features: Area: 300 m^2 Ready Services: The land has the essential infrastructure for immediate construction, as it includes access to the water network and electricity connection (light). Setting: Ideal for building a permanent or vacation residence in a place that combines the convenience of services with the warmth of community life. This is an opportunity to secure your assets in a location that blends the comfort of essential services with the unmatched charm of small-town life. For more information on the price and to arrange a visit to the land, please contact us.
