A high-end development also deserves high security. La Divina is an exclusive development of 23 lots, each measuring just 2,000 m2, surrounded by a high stone wall that blends with the surrounding mountain views. Nestled along a single red porphyry stone street and a boulevard lined with mature trees, this creates an enviable ambiance. But perhaps the most important aspect is the security, as access and exit are through exclusive gates monitored by security personnel. Only 23 privileged individuals will be part of this development, and you're one of them
