This land is located between Rancho “La Trinidad” , Residencial “Las Campanas” and Residencial “Otomí”, which together add value to this property that could be yours. It is located in the area called San Miguel Viejo, right at the foot of the Ignacio Allende Dam – Natura Nautical Club dirt road, a road that takes you directly to the dam. I have no doubt that you will love the views, the green landscapes, the tranquility and peace that this whole panorama has. Here you could build the country house of your dreams, away from the noise of the city, but at the same time, conveniently close to it due to its almost direct access. In the area there are grocery stores and some other businesses with products from local producers. You will not be more than 8 minutes from the Bodega Aurrera and the José Manuel Zavala bypass that connects the entire city and its points of interest such as hospitals and other shopping centers.
