Perched hillside in eastern Centro of historic San Miguel de Allende, the Los Arcangeles condominium project—once the grounds of a famous hacienda, now complete with biometric security, parking garage, pool, and historically-preserved clubhouse—hosts this all-new penthouse-level Casa Romana bespoke turnkey masterpiece custom-built by a New York designer with an abundance of global luxury upgrades. Imagine the iconic Roberto Cavali penthouse at The Century in L.A.—but with views of all of San Miguel—and you'll just scratch the surface of Casa Romana, an unparalleled connoisseur's sanctuary worthy of its premium value.Unique in the entire condo complex, this home was fully custom built with features not available in the other units: custom entryway gate and fountain, all-cantera stone floors, a three-sided fireplace serving as the artistic anchor of the social salon—with another custom fireplace in the bedroom suite—custom-fabricated uPVC Duovent (insulated glass) windows & doors, solar radiation...
