## Duplex house

**ID:** 4786 **Price:** \$ 1,600,000 MXN

The front part of one of the houses could be turned into a commercial place or it could be used as one house. It needs to be remodeled and finished in some parts but it has good potential as the construction could be added. It has beautiful panoramic views from the second floor and 360 degree views from the the roof top.
